## EDUCATION

Grambling State University, LA, USA

Bachelor of Science in Computer Science

G.P.A 4.0

Expected Graduation: December 2028

Relevant Coursework: Calculus, Computer Science

## SKILLS

### Technical Skills:

Programming Languages: **Python, Java**

Non-Programming Languages: Microsoft Access, Microsoft PowerPoint, Microsoft Excel

Non-Technical Skills: Teamwork, Time Management, Maintenance, Communication

## PROFESSIONAL DEVELOPMENT / WORKSHOPS

- Participated in **Amazon Campus Prep Series**- learned effective interview techniques, professional networking strategies, and key skills required for various roles through insights from industry professionals.

## PROJECTS

### **Blood Pressure Monitor Simulation (Python)**

- Collaborated with a classmate to design a functional health-check tool as part of a computer science final project.
- Built a Python-based blood pressure monitor simulation that prompts users to input systolic and diastolic values and returns categorized health feedback.
- Implemented input validation and error handling to manage incorrect or unrealistic user entries, ensuring clear communication through custom error messages.

### **Online Examination System (Java)**

- Developed a console-based online exam application using Java, Scanner, and arrays to manage login, profile updates, and multiple-choice questions, enabling timed exams with auto-submit functionality.

## WORK EXPERIENCE

### **Volunteer Student Teacher at The Ambassadors Primary School Grade 5 | April-May 2023**

- Balanced academic responsibilities while volunteering part-time (2 hours daily), demonstrating strong time management and commitment to community service.
- Improved Grade 5 students' math performance by 49% by teaching core concepts through interactive methods such as group activities, real-life examples, and visual aids, significantly boosting engagement and understanding.
- Developed and applied transferable skills—such as accountability, diligence, and effective communication—by delivering daily lessons and supporting individual student needs.

### **Bake Sale and Car Wash volunteer at The Ambassadors College, Ogun, Nigeria**

- Contributed to raising **₦50,000+** for local charitable causes by actively participating in planning, setup, and sales during bake sale and car wash events.
- Supported event success by coordinating logistics and sales efforts, helping increase fundraising revenue by **35%** compared to previous initiatives.
- Strengthened teamwork and collaboration skills by working closely with a team of **10+ peers** to efficiently manage tasks and deliver excellent customer service.
- Gained experience in **customer interaction, time management**, and event coordination.

## LEADERSHIP

### **The Ambassadors College | Ogun State, Nigeria | September 2022 – December 2022**

- Appointed as 1 of 32 students to lead the class department, overseeing student needs and activities.*
- Demonstrated strong leadership, communication, and problem-solving skills while fostering a positive class environment.*

## AWARDS

- A's in West African Secondary School Certificate Education Subjects Mathematics, Literature, and Information, Communication & Technology,
- A's in International General Certificate of Secondary Education subjects Information, Communication & Technology, Mathematics, and Literature.
